SIDDHESH ENGINEERS

About Us

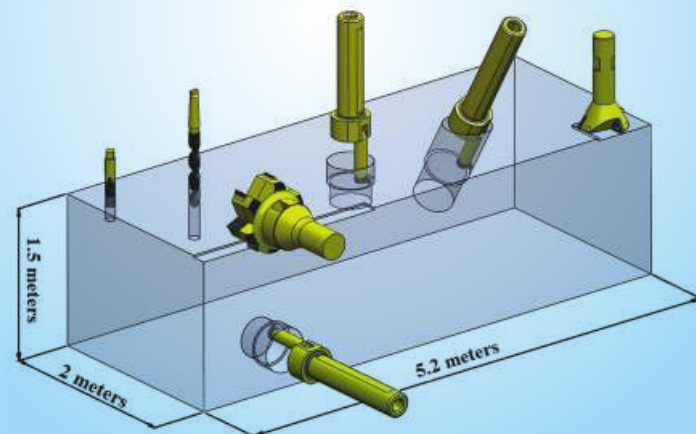

Siddhesh Engineers is a 18000 square feet state-of-the-art facility located at A-65, 5-Star MIDC, Kolhapur, Maharashtra, India. Since its inception in 2009, facility has experienced steady customer and capability growth.

We have more than 25 years of experience in manufacturing and machining of heavy jobs for Defense, Machine Tools, Sugar, Cement, Textile, and Paper industries.

Siddhesh Engineers is equipped with the most advanced tooling and fixtures available in the global market. Most of our machines, cutting tools, and measuring equipment are from European and Japanese manufacturers such as Wohlhaupter, Hiedenhain, LINE, Binns & Berry, Csepel, VDF, VWF, and Mistubishi.

The latest additions to our productive capabilities are:
LINE CNC Planomiller : Table length: 5 meter, Table width:1.6 meter, Distance between column: 2 meter, Travel above the table: 1.5 meter
Sharda Planomiller: Table length: 5 meter, Table width: 1.3 meter, Distance between column: 2.5 meter, Travel above the table: 1.5 meter.

VARIOUS MACHINING OPERATIONS PERFORMED ON CNC PLANOMILLER ARE :

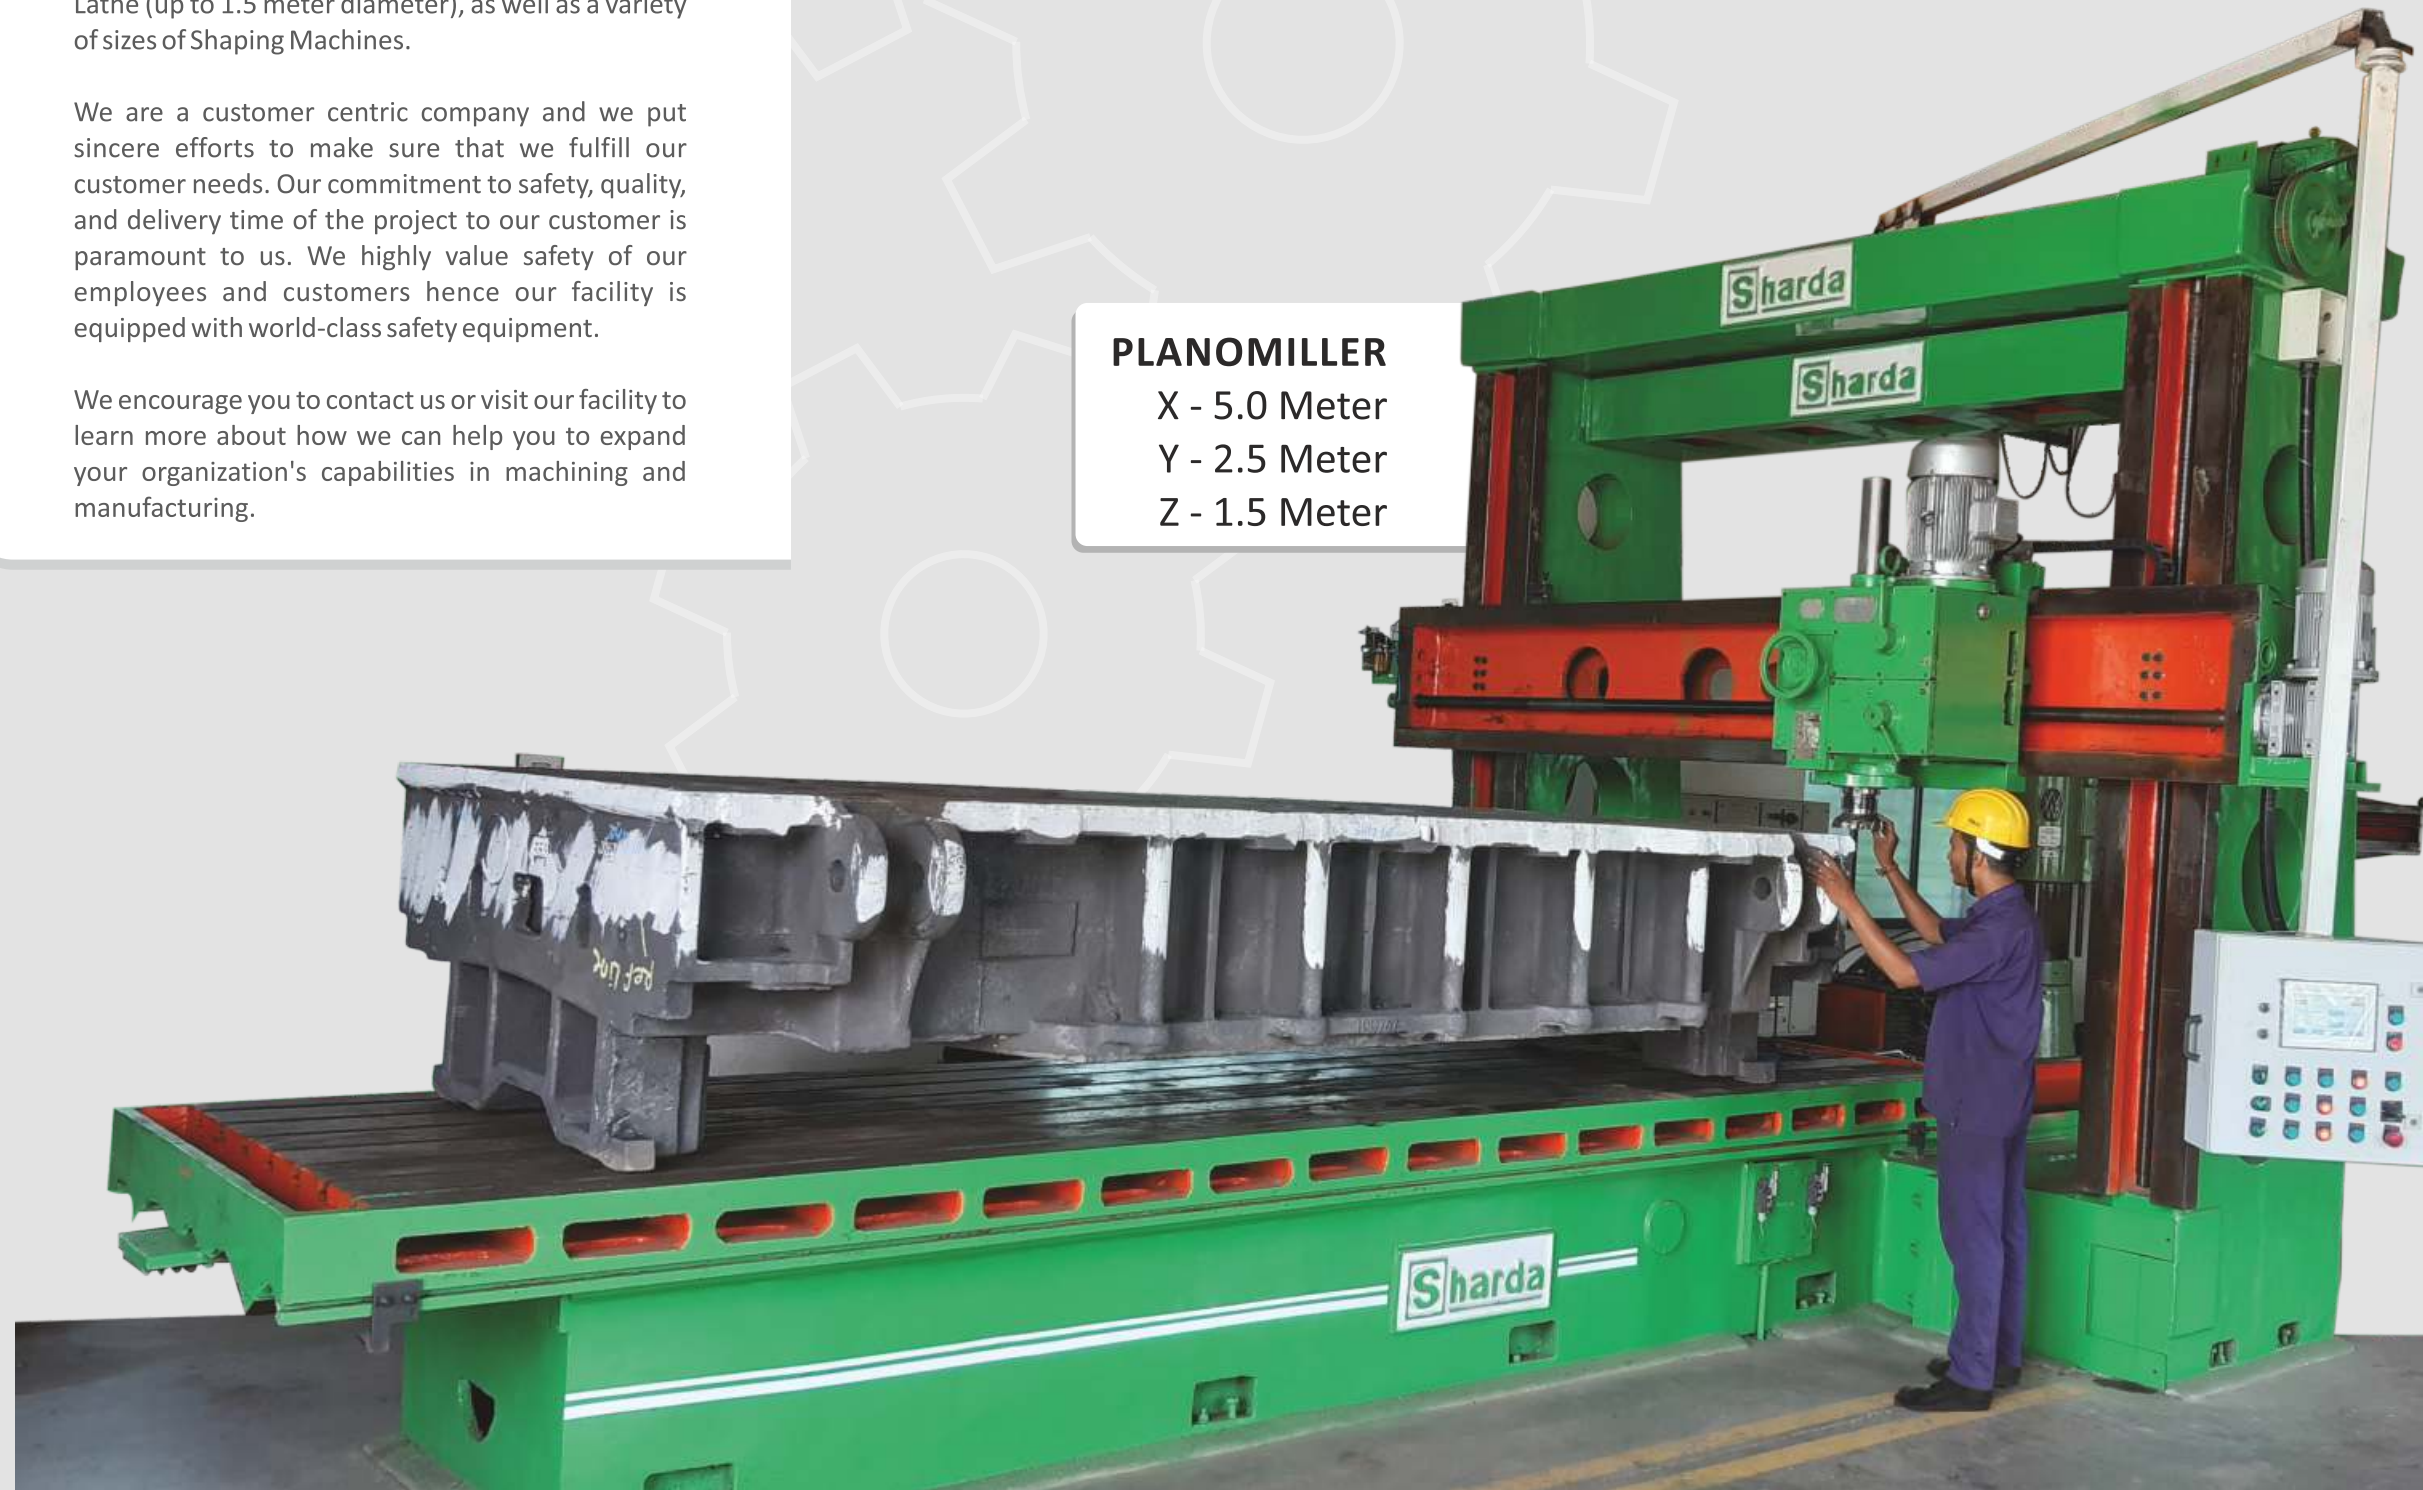

Our other existing machines include; Horizontal Boring Machine (100 mm spindle diameter), Heavy Duty Lathe (5.5 meter distance between center), Slotting Machine (800 mm stroke), Vertical Turret Lathe (up to 1.5 meter diameter), as well as a variety of sizes of Shaping Machines.

We are a customer centric company and we put sincere efforts to make sure that we fulfill our customer needs. Our commitment to safety, quality, and delivery time of the project to our customer is paramount to us. We highly value safety of our employees and customers hence our facility is equipped with world-class safety equipment.

We encourage you to contact us or visit our facility to learn more about how we can help you to expand your organization's capabilities in machining and manufacturing.

PLANOMILLER
X - 5.0 Meter
Y - 2.5 Meter
Z - 1.5 Meter

Machine :
 CNC PLANOMILLER
Manufacturer :
 LINE, FRANCE
CNC Control System :
 SINUMERIK 828D (Siemens)

Machining Range
 X - 5.2 Meter
 Y - 2.0 Meter
 Z - 1.5 Meter

OVERHEAD TRAVELLING CRANE
 Control: Electrical/Mechanical, Capacity: 10 ton + 5 ton = 15 ton

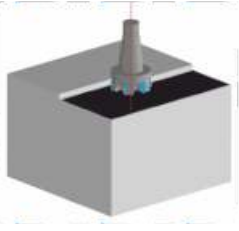

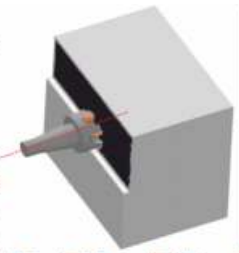

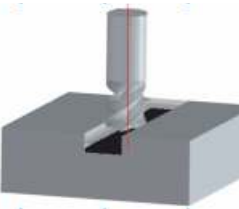

550 mm Swing x 5500 mm Lg. Heavy Duty Lathe, Bins & Berry

100 mm VWF Horizontal Boring Machine

CNC PLANOMILL MACHINING OPERATIONS & SPECIFICATIONS

| Sr. No. | Machining Operation | Maximum Machining Range | Tooling | 3-Dimensional |
|---------|--|-------------------------|---------------------------------|---|
| 1 | Face Milling | Length - 5200 mm | Wohlhaupter, Mitsubishi, Others |  |
| | | Width - 2000 mm | | |
| | | Depth - 1500 mm | | |
| 2 | Side Milling | Length - 5200 mm | Wohlhaupter, Mitsubishi, Others |  |
| | | Width - Variable | | |
| | | Height - 500 mm | | |
| | | Total Height - 1500 mm | | |
| 3 | Angular Milling | Length - 5200 mm | Wohlhaupter, Mitsubishi, Others |  |
| | | Width - 2000 mm | | |
| | | Depth - Variable | | |
| 4 | Radial - Depth - Peripheral Milling | Length - 5200 mm | Wohlhaupter, Mitsubishi, Others |  |
| | | Width - 2000 mm | | |
| | | Depth - Variable | | |
| 5 | Slot Milling | Length - 5200 mm | Wohlhaupter, Mitsubishi, Others |  |
| | | Width - 2000 mm | | |
| | | Depth - Variable | | |

CNC PLANOMILL MACHINING OPERATIONS & SPECIFICATIONS

| Sr. No. | Machining Operation | Maximum Machining Range | Tooling | 3-Dimensional |
|---------|--------------------------|-------------------------|-------------------------|---|
| 6 | Vertical Boring | Diameter: 620 mm | Wohlhaupter, Mitsubishi |  |
| | | Depth: 500 mm | | |
| 7 | Angular Boring | Diameter: 620 mm | Wohlhaupter, Mitsubishi |  |
| | | Depth: 500 mm | | |
| | | Angle : 0 ° To 45 ° | | |
| 8 | Horizontal Boring | Diameter : 620 mm | Wohlhaupter, Mitsubishi |  |
| | | Depth : 300 mm | | |
| 9 | Drilling | Diameter : 60 mm | Various |  |
| 10 | Tapping | Diameter : 52 mm | Various |  |
